CMCC Doc. No. 151.622  
Copy 1 of 2  
Page 1 of 1

Dear Herb:

We will shortly be starting engineering design work on Systems 2 and 3, and it is our desire to design, insofar as possible, in full accordance with established military equipment standards. For this reason we would like to request that you supply us with two sets of standards, each set to include the following:

1. ANA Standards (AN Sheets)
2. ANA Design Standards (AND Sheets)
3. MS Military Standards (MS Sheets)

As you probably recall, these standards cover hardware and other items that have been standardized for use in military production equipment and which are normally stocked by military procurement agencies. Adherence on our part to these standards will assist materially in the simplification of field servicing problems.

Sincerely,

25X1A

Burt
